Desire, Time and Effort (Song 1) Processing Questions

- What do you want to put your desire, time, and effort into? (Emphasize that it's important that it is something that doesn't hurt themselves or others.)
- Identify a goal that right now seems unattainable. How can you break it down and over time work toward achieving it? Why are desire and effort important in preventing a crash on the Reality Ride?
- "Anything worth having is worth my time and my best try." What does this chorus mean to you?
