

Get Plugged In: I Really Need a Friend

Friends come in all shapes and sizes

With different shaped bodies and different colored eyeses

Friends will call and talk with you, go to the mall and walk with you

They tell you their fears, hopes and surprises

I really need a friend, an amigo, a pal, a buddy

Doesn't matter if they're not rich, cool or pretty

Or if they're a little bit nutty

I really need a friend

Friends are great to have when you are playing

They will listen to you, hear what you're saying

They'll laugh and they'll cry with you, and stand right beside you

When others leave they will be staying

A lot goes into being a friend

Working together, the time that you spend

Learn how to trust, you don't have to pretend

It's so good to have a friend

Friends are always happy when they're sharing

They are fun, they are nice and they are caring

They forget and they forgive, they let you live as you want to live

They smile when they see the smile you are wearing
