

# Get Plugged In: Plugged In (Hip Hop)

I get going I get rolling along  
I don't look back I look ahead and move on  
Got to go with the flow when the current is strong  
Got to get plugged in so the light can come on

I need to get plugged in so I can get the juice  
And shine light on my life so I can get the truth  
So I can see through your lies and poor excuse  
For being my friends kid you just pretend  
Cause your just trying to pull me down in the end  
Like that song that we rock about the "Crabs in the Pots"  
I got a lot of friends and they're crabs a lot  
They don't have the kind of self respect I got

(CHORUS) (repeat)

And then shine because it's my time to shine it's my time to shine come on shine

(CHORUS) (repeat)

I want to hang out with positive friends  
The ones that lead down paths with positive ends  
Yo I want to be the kind of friend I'd like to have  
Like the one that helped me out on the mic perhaps

And you know you like the vocals overlap  
And you know we love the way the locals go for that  
And you know that's what motivates us to rap  
And you know that's the way we're supposed to act

(CHORUS) (repeat)

And then shine you got to let that shine come on shine

Yo rhyming on the mic is how I put in work  
It's what I do with my friends that I know won't hurt  
My friends myself or anyone else  
It gives us self respect and you know that helps

(CHORUS)

And then shine because it's my time to shine I shine  
Because you know it's my time you know it's my time...
